PROFILE

Product designer and front-end developer with 3+ years of experience across websites, web apps and mobile apps. I currently lead product, design and front-end build for Adools' digital products. Because I came from code, I design with the build in mind. Open to freelance projects and full-time roles, remote or in Lagos.

EXPERIENCE

Product Manager, Lead Designer & Developer · Adools Construct & Designs — 2025 – Present

Architecture & construction studio, Nigeria · Joined as Lead Product Designer, then took on product and development

- Lead the company's digital products end to end: planning, UX and UI design, and front-end build.
- Designed and built the Adools website (adoolsdesign.com), presenting the studio's architecture, construction and interior services.
- Designed and built FewSure (fewsure.com), which helps people plan, save towards and build a house in small steps, with a cost calculator, build plans and savings tracking. The mobile app is in progress.
- Designed and built the website for Village Hub, a 24-hour student hub at the University of Ibadan, covering co-working bookings, laundry, food ordering and membership.

Graphic Designer · Ufitfly (travel agency), Nigeria — 2022 – 2025

- Designed marketing graphics, social media content and promotional materials for the agency's travel packages and campaigns.
- Maintained the brand guidelines, keeping visuals consistent across social media, print and the website.
- Supported the company website, designing and updating pages and visuals alongside the web team.

Product Designer (Volunteer) · Mebi Technologies, Nigeria — 2025

- Designed website and mobile app interfaces, using prototypes and usability testing to refine ideas with developers and stakeholders.

Product Designer (Freelance) · My Quest, Nigeria — 2025

- Designed the My Quest mobile app UI, from wireframes and prototypes to tested, refined flows.

SELECTED PROJECT

Crost Flow · Concept fintech app & website — 2025

Product & UI design · Brand identity by Agirgbe-Adeeko Ayomide

- Designed a credit card app and landing website for freelancers and young Nigerians, covering onboarding, spending insights and card controls; 58 appreciations and 400+ views on Behance.
